Online Courses:

Swift Syntax
Git

Technical Projects

iOS Heart Rate Monitor with Raspberry Pi

June 2016-July 2016

Apple Watch app gets heart rate, phone displays realtime spline chart of heart rate using PubNub EON.js framework. Pi flashes LEDs bases on heart rate.

Android Pokemon Go map

July 2016

Android app uses unofficial Pokemon Go API to display Pokemon around you. Uses *ngrok* server, Google Cloud Messaging + PubNub for push notifications.
